RAND 3D

Creo Parametric 7.0 Training
Introduction for Non-Designers
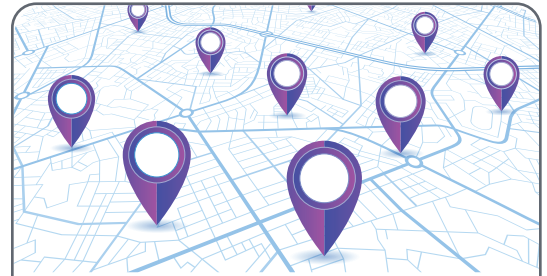

Course Length: 2 days

This training course provides reviewers or downstream users of Creo Parametric data with the knowledge to investigate, manipulate, and annotate existing models. It is targeted at users who require less training about geometry creation techniques. The user learns to open models for the purpose of providing feedback, verification, image capture, and taking data into specialized modules. This training course provides a good introduction to Creo Parametric for users who are evaluating the software or need a high-level understanding of the software's capabilities.

This content was developed using Creo Parametric 7.0 Build 7.0.2.0.

Course Topics:

- Creo Parametric interface
- Obtaining model information
- Display control
- Creating datum features
- View manager
- 3D annotations
- Creating planar and offset cross-sections
- View creating and detailing
- File management
- Exporting and importing data

Prerequisites: None

On-Site Training
Rand 3D offers its Creo Parametric classes at your preferred location. You provide the site and software, and we'll take care of the rest!

In addition to the expertise you'll receive from our instructors, attendees will receive a copy of the learning guide to keep for future reference, and a Certificate of Completion.

For class pricing, please contact your Education Sales Representative.
