RAND 3D

3DEXPERIENCE Training
## CATIA Assembly Design Expert

Course Length: 2 days

This CATIA course will introduce you to complex assembly modeling techniques. Learn how to design a product architecture and manage complex assembly structures. You will also learn how to use advanced features to design parts within an assembly environment and how to analyze interferences.

Course Topics:

- Analyze interferences
- Analyze component links and relations
- Design complex products
- Design new parts within a product
- Manage complex product structures

Prerequisites: Familiarity with CATIA Part Design and Assembly Design fundamentals

Learn Where It's Convenient for You

Attend Classes:

- Online with an instructor
- At one of our training centers
- At your on-site training facility
- At a location of your choice (via our mobile training labs)
