

Creo Parametric 4.0 Training

Core Update from Creo Parametric 2.0

Course Length: 1.5 days

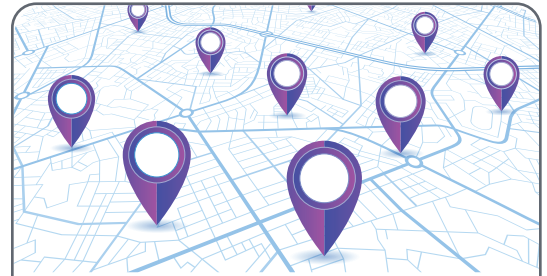

As an experienced user of Creo Parametric 2.0, this training course enables you to become familiar with the enhancements that have been made to the core capabilities of Creo Parametric 4.0. This extensive hands-on course contains numerous labs and practices to give you practical experience that will improve your job performance.

This course was developed against build M010 of Creo Parametric 4.0.

Course Topics:

- User Interface Enhancements
- Part Modeling Enhancements
- Sketcher Enhancements
- Assembly Enhancements
- Drawing Enhancements
- Sheetmetal Enhancements

Prerequisites: Creo Parametric 2.0: Introduction to Solid Modeling or equivalent Creo Parametric 2.0 experience

On-Site Training

Rand 3D offers its Creo Parametric classes at your preferred location. You provide the site and software, and we'll take care of the rest!

In addition to the expertise you'll receive from our instructors, attendees will receive a copy of the learning guide to keep for future reference, and a Certificate of Completion.

For class pricing, please contact your Education Sales Representative.
