

# Creo Parametric 7.0 Training

Design, Documentation, and Detailing

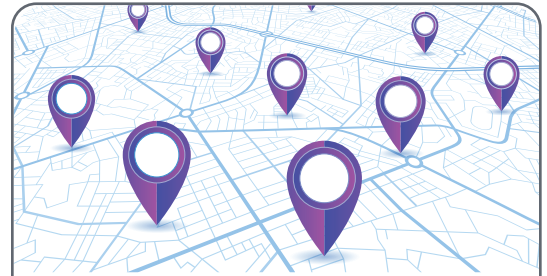

## Course Length: 2 days

This hands-on training course is designed for all draftspersons that document designs using Creo Parametric. It focuses on learning how to use Creo Parametric to communicate design information from your part and assembly models.

## Course Topics:

- View creation
- View manipulation
- Detailing a drawing
- Drawing notes
- Tolerances
- Assembly drawings
- Drawing tables
- 2D sketching
- Symbols

**Prerequisites:** Creo Parametric: Introduction to Solid Modeling or equivalent Creo Parametric experience

## On-Site Training

Rand 3D offers its Creo Parametric classes at your preferred location. You provide the site and software, and we'll take care of the rest!

In addition to the expertise you'll receive from our instructors, attendees will receive a copy of the learning guide to keep for future reference, and a Certificate of Completion.

For class pricing, please contact your Education Sales Representative.
